LOT 1000a - Kywoo3D Tycoon IDEX 3D Printer - Barely Used

Description

Kywoo3D Tycoon IDEX 3D Printer – Barely Used, Like New

Kywoo3D Tycoon IDEX (Independent Dual Extruder) 3D printer in excellent, barely-used condition. This professional-grade machine is packed with premium features, ideal for hobbyists, small businesses, and creators looking to expand into multi-material or dual-color printing.

Key Features:

- Independent Dual Extruder System (IDEX):
Print two materials or two colors at once, or mirror/duplicate parts simultaneously for faster production. Ideal for dissolvable supports (like PVA), complex models, and flexible materials.
- Large Build Volume:
300 x 300 x 330mm (11.8" x 11.8" x 13") – roomy enough for large prints or multiple parts in one job.

- Direct Drive All-Metal Extruders (x2):
Currently equipped with 0.4mm nozzles, great for detailed prints. Comes with two additional 0.6mm nozzles for faster, higher-flow printing when needed.
- CoreXY Motion System + Dual Z-Axis + Linear Rails:
Offers fast, smooth, and precise movement with improved print quality and stability.
- Auto Bed Leveling with BLTouch Sensor:
Ensures consistent and reliable first layers on every print.
- 4.3" Color Touchscreen Interface:
Easy-to-navigate UI for setup, tuning, and print monitoring.
- Filament Runout Sensor & Power Loss Recovery:
Resume prints automatically in the event of power failure or filament breakage.
- Flexible Magnetic PEI Build Plate:
Excellent adhesion for most materials, and parts pop off easily once cooled.
- Built-in Webcam for Remote Monitoring or Time-Lapse Video Recording
Great for keeping an eye on your prints or capturing your work in progress.
- Wi-Fi Connectivity + USB/SD Card Support:
Upload prints over the network or use traditional USB/SD methods.

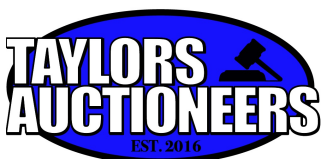

Supported Filaments (1.75mm):

- PLA
- PETG
- TPU (flexible)
- ABS
- PVA (water-soluble support)
- Wood, Silk, Carbon-Fiber blends, and more

This unit has only been lightly used for a few test prints and is in like-new condition. All original parts are included along with the webcam and two spare 0.6mm extruders/nozzles.

Don't miss your chance to own a powerful IDEX 3D printer with all the bells and whistles — ready to print right out of the box!
